## Letter of Intent - Identifying Strategic Suppliers in the Energy Field

**Dear partner,**

With this letter of intent, we express our interest in establishing strategic partnerships in the field of energy. We recognize the value of collaboration and creating synergies between organizations to promote innovative and sustainable energy solutions, for a better future.

We are a company specialized in providing turnkey, integrated and customized energy solutions, so that we can be considered the most trusted partner of our beneficiaries. We take pride in our experience in implementing efficient solutions, including the use of renewable energies and energy consumption optimization, with a strong emphasis on protecting the environment. Additionally, we are dedicated to educating our beneficiaries about the benefits and positive impact of these energy solutions, so that we can collaborate together to optimize costs and bring added value to your business.

### Complete solutions for producing electricity from renewable sources.

The vision of CRC Energy is to continuously evolve as an organization, to adapt to the changes in our environment and to optimize our own way of working to meet both internal and market needs.

The mission of CRC Energy is to expand the sustainable energy footprint beyond statements and intentions, to generate new innovative businesses and contribute to creating a new energy model with a focus on renewable sources.

CRC Energy Values:

- ✓ To work responsibly.
- ✓ To create a positive impact economically, socially and environmentally.
- ✓ To continuously offer new solutions and ways of working.
- ✓ To propose remarkable improvements.
- ✓ To maintain a competitive advantage in a responsible manner.
- ✓ To stay committed to the mission and vision we have set.

We are interested in getting to know and become partners with important and respected players in the energy industry, and we believe that a collaboration between CRC Energy and your company would be beneficial for both parties. We aim to explore collaboration opportunities in the following areas:

1. **Technological innovation in energy:** We are interested in collaborating on the development and implementation of innovative technological solutions such as energy storage systems, consumption management solutions, or smart technologies for energy efficiency.
2. **Renewable energy:** We share a passion for promoting renewable energy and green technologies. We are interested in identifying ways to collaborate on solar energy projects, wind energy, or other renewable energy sources.
3. **Energy efficiency:** We are dedicated to improving energy efficiency and reducing our carbon footprint. We aim to explore partnerships in the development and implementation of energy efficiency solutions for buildings, industries, or infrastructure.
4. **Energy consulting and services:** We are interested in expanding the range of services we can offer to our clients in the energy field. We are seeking partnerships to provide specialized consultancy, energy assessments, and customized solutions for our clients.

What we aim for:

- To be one of the examples of best practices in energy efficiency and the use of renewable energy in day-to-day life, both in the private and public sector, in Romania and Europe.
- To challenge industry specialists in Romania to create integrated and quality projects.
- To have at least 500 MW installed both on the ground and on rooftops by 2030.
- To be involved in the energy efficiency tradition of at least 5.000 buildings by 2030.
- To have at least 50 hydrogen/biogas productions system installed.
- To have at least 5 geothermal water systems installed.

What we are looking for:

- Partners who are compatible with our long-term philosophy to join us in creating mature and benchmark projects, and to achieve these goals together.

We would be pleased to discuss further details and identify concrete ways of collaboration. Please feel free to contact us at the phone number **+40 740 169 483**, or via email at **sergiu@crcenergy.ro**

Thank you for considering our letter of intent. We look forward to the possibility of working together.

**Sincerely,**  
**Head of engineering CRC Energy**  
**Sergiu Gavis**
